

HARDWARE DESK

DESCRIPTION

The clerk can handle the clients with the help of this keyboard (recalling, forwarding, closing the case; sending to expectants list... etc.). The basic type is equipped with 6 pcs. of menu-driven buttons and a 2x16 characters LCD display which can display text informations and error messages. The built in buzzer arouses the clerk's attention. In the pro version the 6 pcs. of menu-driven buttons are amended with 10 pcs. of numerical buttons which gives us the possibility for entering different codes.
